REASONS FOR ALLOWANCE

Applicant's amendments filed June 24, 2004 have been entered. Claims 1-6, 11-14, and 23-28 are pending.

The following is an examiner's statement of reasons for allowance: The method of treating neuropathic pain employing the compounds of formula (I) is not taught or fairly suggested by the prior arts.

Claims 1-6, 11-14, and 23-28 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner notes that the instant claims could be rejected under provisional obviousness double patenting over claim 43 of US application 10/684,810. However, since such provisional double patenting rejection will be the only rejection in the application and the instant application has the earlier filing date between the two applications (i.e., the instant application and 10/684,810), such rejection will not be raised. The instant application is therefore permitted to issue as a patent (See MPEP 804 1 B). When the instant application is issued as a patent, the patent will be used as conflicting patent for double patenting rejection in 10/684,810.
